

The ginner is watching the cotton flow, the manager is watching the module moisture, and everyone is watching bale moisture...

Introducing

The Moisture Mirror II

*It seems like more and more eyeballs point toward the Moisture Mirror everyday.
Now there is more room for them!*

330% More Room for Your Eyes to Roam!

Enjoy the visibility of a big, bright, 10" color touch screen.
(Engineer's note: 330% more space can accommodate a lot more eyeballs!)

Eyes in the Back of Your Head!

Enjoy the flexibility of Ethernet communications.
(Salesmen's note: My customers want this information in the gin and office. Now I can tell them "Yes!", and at a great price too!)

Keep Your "Eye's" Dotted and T's Crossed!

Enjoy the option of printing a moisture summary.
(Technician's note: If it happened and it didn't get printed, did it really happen?)

Upgrade at any time. Not a dime of your money is wasted!

With Prices Like These, The “Eye’s” Have It!

Never experienced a Moisture Mirror and want to get your feet wet with the most watched product in a cotton gin? A basic Moisture Mirror with 6” color touch screen is still only

\$5,200*

Already have a Mirror and want to upgrade to something bigger, brighter, and more flexible? Upgrade to the Moisture Mirror II for

\$7,000

Want more than one big, bright touch screen? Add an extra for only

\$3,500

Want to automatically print moisture data on this network? Add

\$2,400

The Moisture Mirror Can Accept Signals from Many Sensors.
(For Highest Performance, We Recommend Samuel Jackson Sensors)

Sensing Location or Type	SJ Sensor Model	Net Price
Moisture at Conveyor Belt	80257A Moisture Sensor	\$4,000
Moisture at Feed Control Bin	80250B Moisture Sensor	\$3,000
Moisture at Live Overflow Bin	80252B Moisture Sensor	\$3,000
Cotton Flow Rate (1 Module Feeder – 1 Inclined Cleaner)	81523A Flow Analyzer	\$2,900
Cotton Flow Rate (1 Module Feeder – 2 Inclined Cleaner)	81529A Flow Analyzer	\$4,300

Sensors can also be embedded within high performance Samuel Jackson products like the Hot Box II and the Steamroller. Call for details!

**Basic Moisture Mirror price includes no cotton moisture or cotton flow sensors.*
